

MVC4

Medium Voltage Soft Starter
Weatherproof Series

Real World Hazards, no problem!

2300 - 7200V, up to 400A

MVC4 - WEATHER PROOF SERIES

Designed for Harsh Environments

Standard outdoor enclosures protect equipment from falling rain, and ice formation but those are not the only hazards faced by outdoor equipment. The Motortronics all welded "weatherproof" package protects against not just weather hazards but real world hazards such as:

- Wind driven rain, snow, ice and dust using an all welded NEMA 4 enclosure
- Extreme cold; even when unpowered, with -20°C standard and -40°C available
- Condensation; using two independently controlled convective heaters
- Vermin; Non-ventilated design means no easy entry point
- Personnel; dead-fronted and lockable to keep a low profile
- Lightning; 3 intermediate class arrestors optional
- Integrated cable pull section for bottom feed
- Conduit leaks; Isolated wire-way keeps leaks out of critical areas
